Understanding risk, strengthening governance, preparedness

Joint activities of WMO and GWP:

- Associated Programme on Flood Management (since 2001)
- Integrated Drought Management Programme (since 2013)

Conclusions

An Integrated approach to Water Resources Management can contribute to DRR by:

- 1) Informed risk based approach (cycle of disaster management)
- 2) Long term perspective (adaptive strategies, flexible measures)
- 3) Building partnerships in AP Region
