Introduction

With the success of the previous three international Joint Student Seminars in 2008, 2009 and 2010, the 4th Joint Student Seminar on Civil Infrastructures will be organized jointly by the graduate students from three countries (Thailand, Japan and Korea).

Objective

1) to experience the organization of international seminar,
2) to improve the presentation skill,
3) to share the research information and friendships among top leading Asian universities.

Seminar Themes

The seminar will include presentations by students from each country in different fields, such as transportation, structural, geotechnical, water, and environmental engineering.

Important Dates

15 July 2011: Deadline for paper submission
